• OUR APPROACH

A new approach to crypto arbitrage investing

Arbilife is a platform that leverages price differences across crypto exchanges to generate scalable returns.

Technology-driven

Advanced algorithms analyze market spreads in real time and execute trades automatically.

Transparent model

Clear logic of operation, understandable entry point and visible profit mechanics.

Scalable income

Flexible system that allows users to grow their capital step by step.

• WHY US

Why Arbilife?

We combine advanced technology, transparent processes and a user-first approach to deliver great results.

Proven strategy

Our arbitrage algorithms work across multiple exchanges 24/7 to capture profitable opportunities

Consistent results

We focus on small, stable price differences to ensure steady and predictable returns.

Transparency

Clear information, open statistics and no hidden fees. You always know how it works.

User-first approach

Simple onboarding, intuitive dashboard and dedicated support at every step.

Security & reliability

We use industry-leading security standards to protect your funds and data.

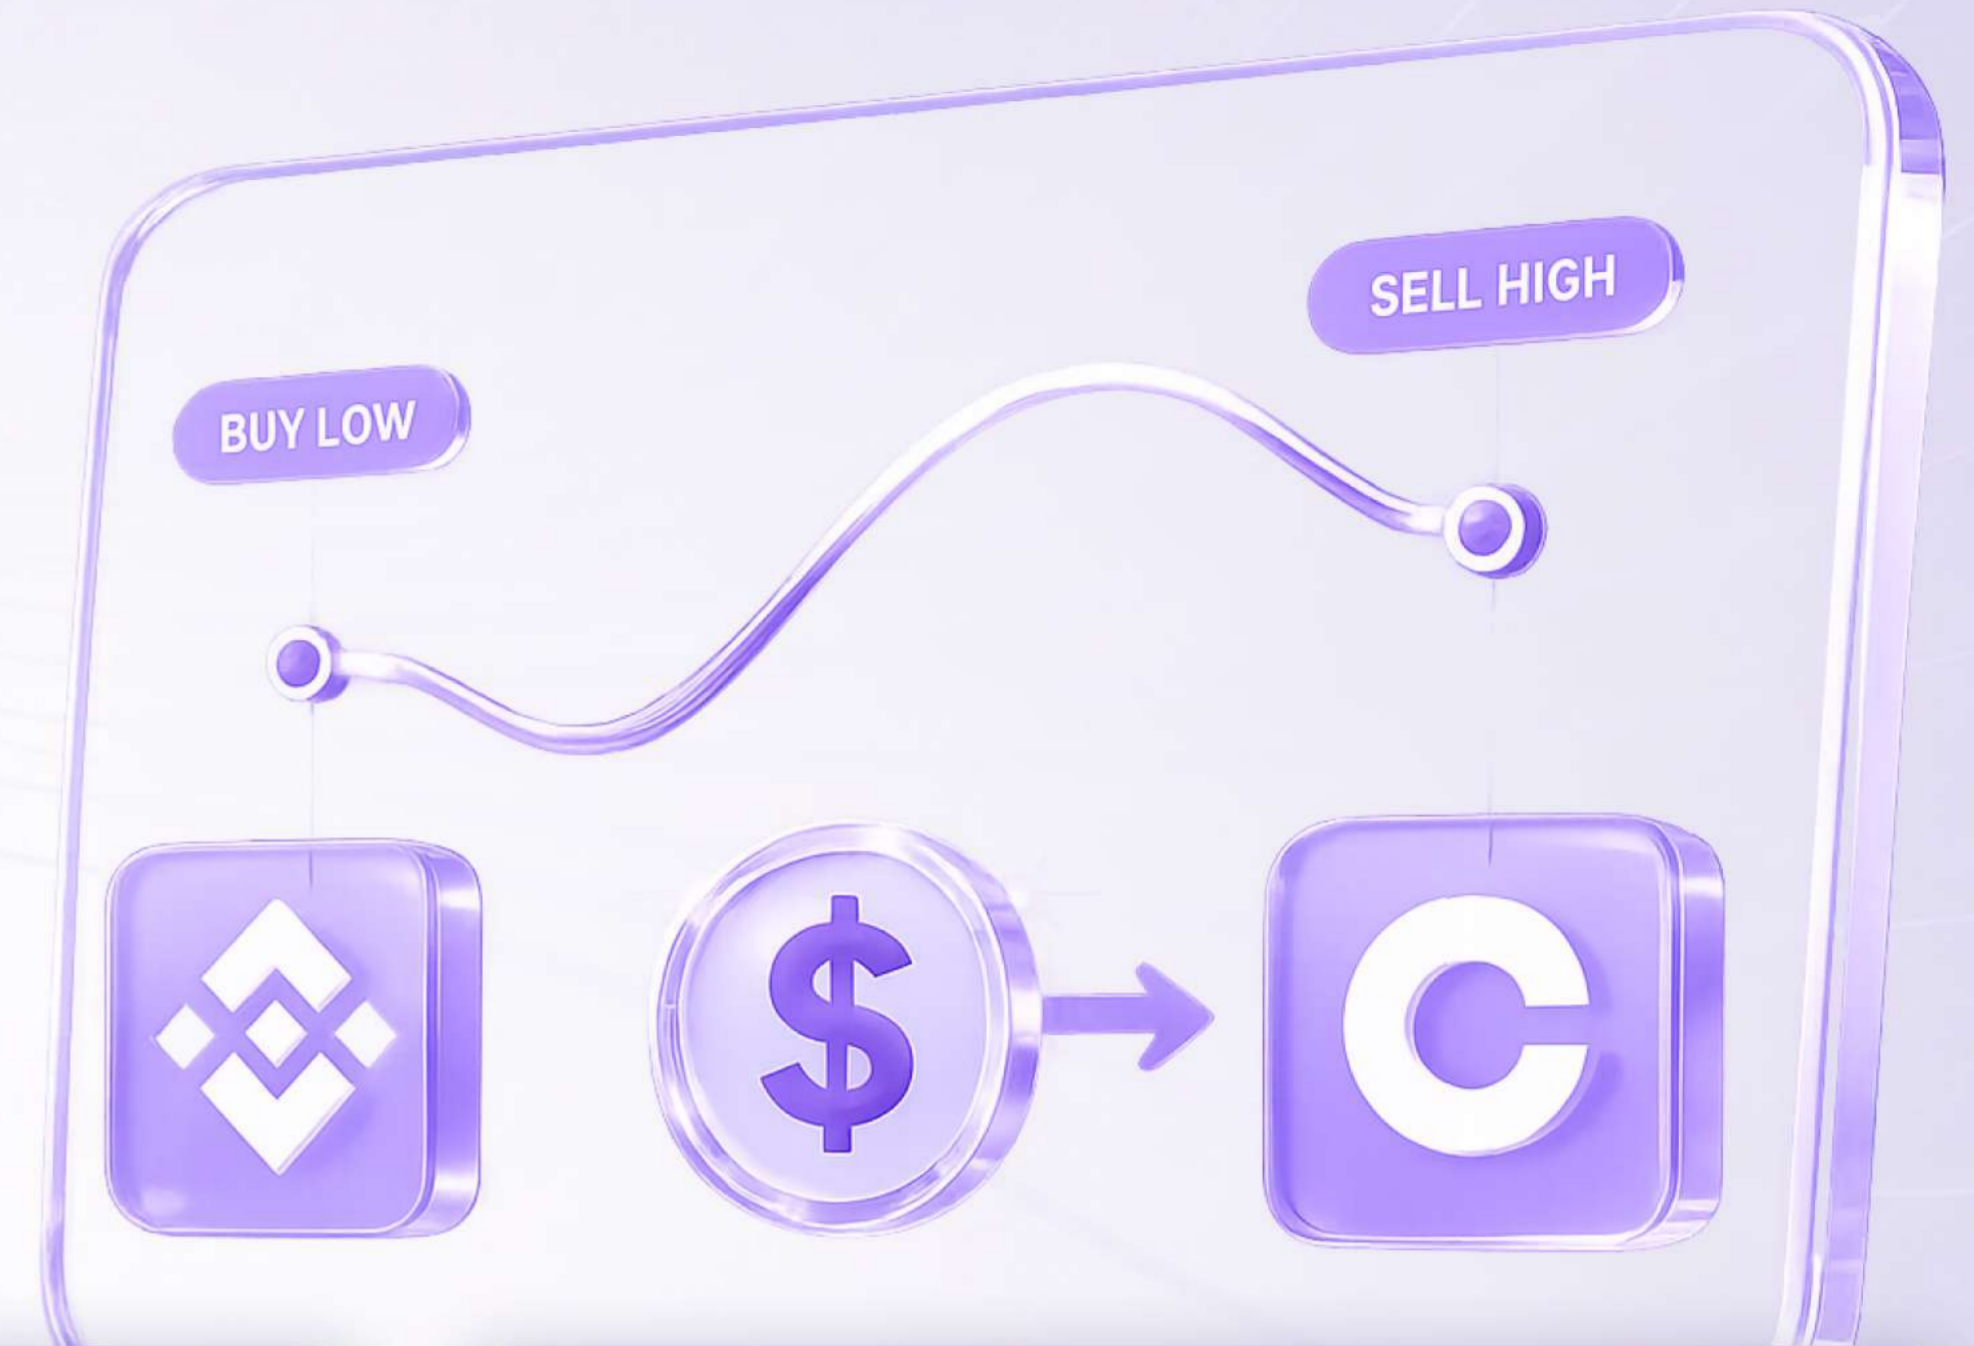

Scalability

Flexible investment plans that grow with you and adapt to your goals.

Why crypto arbitrage works for you

Arbitrage allows us to profit from price differences between exchanges. It's a low-risk strategy with high efficiency.

Low risk

Arbitrage is based on market inefficiencies, not price direction.

Fast profit

Deals are executed in seconds, capturing small but stable spreads.

Market neutrality

Profits are generated regardless of whether the market goes up or down.

Consistent returns

Small spreads traded in high volume create steady, scalable results.

Automation

Smart algorithms scan, analyze and trade 24/7 without emotions.

Accessible for all

You don't need to be a trader. Our platform does the heavy lifting for you.

• INVEST WITH ARBILIFE

Grow your capital with confidence

We create attractive investment opportunities in crypto arbitrage.
Start with a small amount and let your funds work for you every day.

Investment terms

Simple rules. Clear conditionals. Daily accruals.

- | | |
|--|---|
|  Rewards
Accrued daily |  Payouts
Manual, up to 2 calendar days |
|  Deposit period
7 days |  Principal withdrawal
At the end of the term |
|  Accrual frequency
Every 24 hours |  Payment systems
USDT (TRC20, BEP20, ERC20) |

 **Reliable and transparent**
No hidden fees. No surprises. Just clear terms and real results.

 **20%**
Company commission

Why this model works

Our approach is built on proven logic and technology.

- | | |
|--|---|
|  Market inefficiencies
We profit from price gaps across exchanges – not market direction. |  Automated execution
Algorithms scan and execute trades 24/7 without manual input. |
|  High liquidity markets
Trades happen in active markets with constant opportunities. |  Risk distribution
Capital is allocated across multiple trades to reduce exposure. |

• REFERRAL SYSTEM

Invite. Earn. Build together.

Our referral program allows you to earn a percentage of your referrals' profits. Share your link, expand your network, and get rewarded every day.

10%

of the referral's net profit

You will receive 10% of your referrals' net profit.

Start today

Invite once — earn every day

10,000+

partners already earning with us

Favorable terms

Earn 10% of your referrals' net profit every day. No monthly waiting — rewards are credited daily.

Daily payouts

Invite a friend once and get rewards every day while they stay active and invest with us.

Fast payouts

No need to wait long for your profit. Withdraw your earnings at any time — quickly and conveniently.

Full transparency

Track all referrals, earnings, and statistics in your personal account in real time.

Income grows automatically

The more active your network, the higher your income — without extra effort.

• OUR JOURNEY AHEAD

Arbilife Roadmap

Our plan for 2026 is built on growth, innovation, and global expansion. Here's what's next.

Q1 2026 Preparation

Platform Launch

Project preparation, testing, and launch. Company registration in the UK. Adding the most popular language versions to the website. Starting mobile app development. Adding the most popular social networks. Reaching a turnover of 5,000,000 USDT. Launching a global advertising campaign.

Q2 2026 Expansion

Steady Development

30,000+ active clients and 50 million+ under management. Full integration with TON and Telegram wallets (deposit and withdrawal directly from Telegram). Launch of our own ultra-fast L3 opportunities scanner (less than 80 ms). Entering Asian markets. Adding new features for investors on the website.

Q3 2026 Update

New Horizons

A powerful advertising campaign and expansion into new markets. Development of new arbitrage trading strategies. Updating our software. Expanding our staff. Launching our own token. Full automation + artificial intelligence for predicting arbitrage windows.

Q4 2026 Innovation

Further Expansion

Further development of our own token. Support for all top 30 blockchains and 50+ exchanges. Total volume under management exceeds 100 million USDT. New personal account with real-time profitability charts. Average client profitability rises to 95–145% per annum. 100,000+ active clients. Launch of an educational academy on cryptocurrency arbitrage trading.

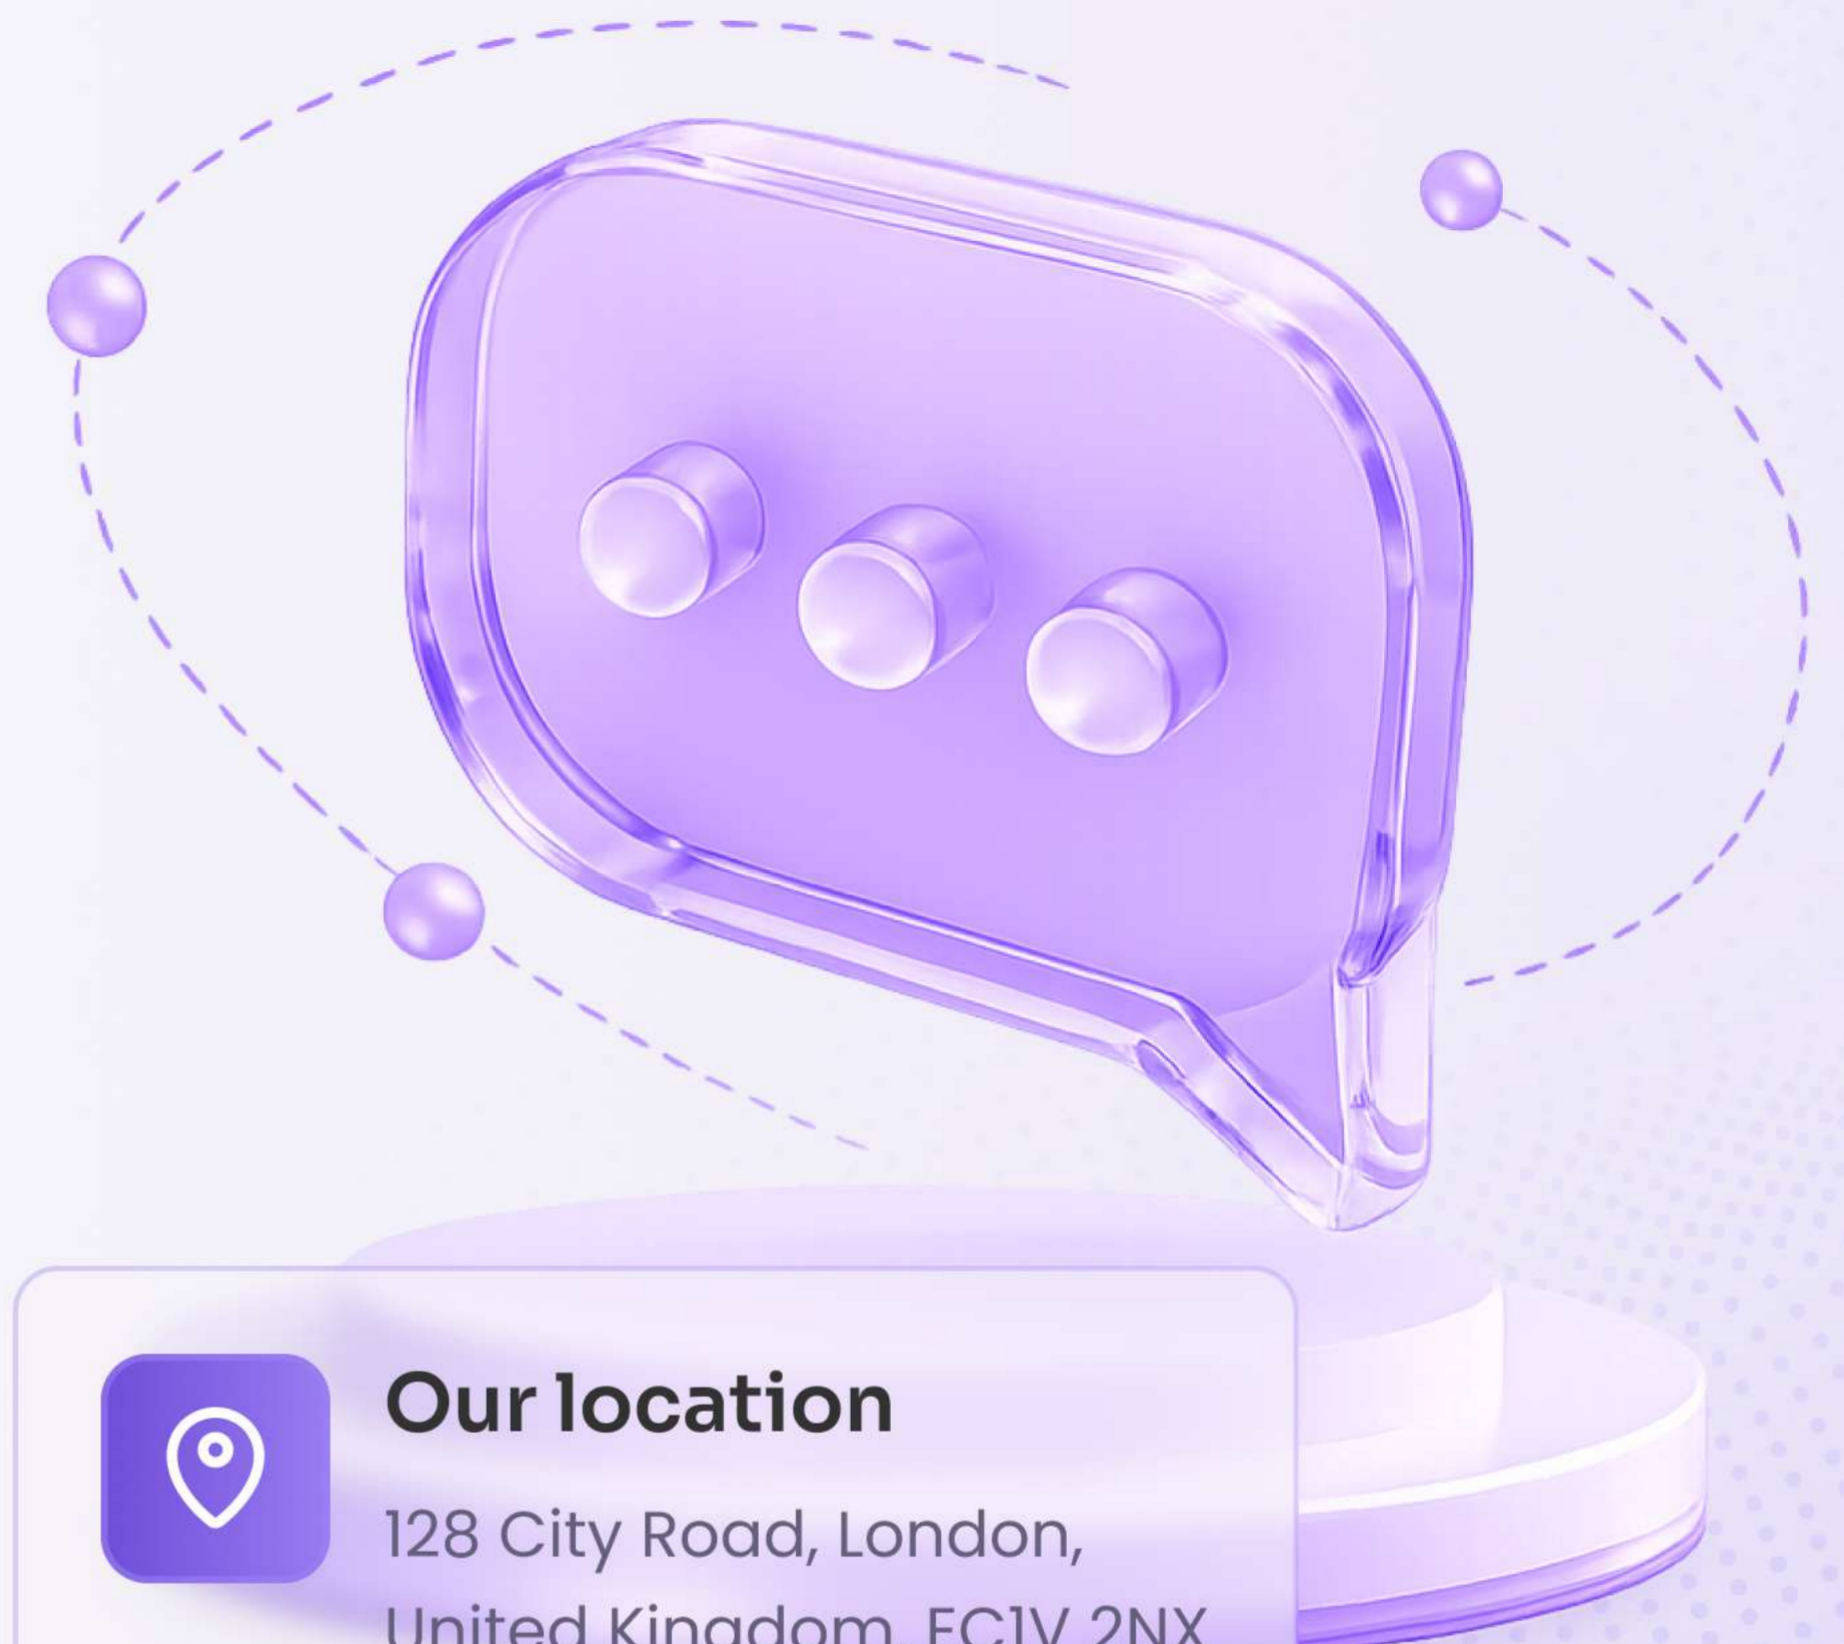

This roadmap reflects our vision and goals for 2026. Details may evolve as we grow.
